Depth of Drilling/Discharge of the well:

2. The depth of drilling of hand pumps shall be <u>normally 45 meters at an average BGL</u>. The depth of the drilling under normal Geological conditions is dictated by availability of potable water @ 17 liters/ minute of hand pump. In no case is the maximum drilling depth is to be construed mandatory despite availability of copious discharge at lesser depth.

3. In case the no discharge is found at the desired drilled depth, the payment shall be reduced as per the procedure adopted by the department vide Superintending Engineer, PHE Mech. Circle (North) Srinagar's letter No: PHE/MCN/NIT/5564-65 Dated. 26-03-2018, after its analysis and verification by the concerned Assistant Ex. Engineer.

4. Completion period: The work will be completed within 05 days from the date of issuance of allotment order.

Note:-

The firms shall have to take geo-tag photograph of the site of each Hand Pump well before start of work, during excavation & completion of work with same back ground mentioning the dates.

Sy Exen

Allotment Order No: JS-PHE/GWDS/32

- 5. Selection of site: The designated site for construction of the hand pump well shall be converged to the contracted agency. The deployment of the Rig unit shall be structions of the Junior Engineer thereof. No deviations of instructions there in shall be intertained and in case of a dispute arising thereof between the firm and the departmental expresentative, the firm shall render itself liable for punitive action comprising of terminating the contract. The Junior Engineer shall however, base his decision on selection of site purely on hydrogeological parameters and need basis factoring in the recommendations of established public epresentative/village heads. In no case shall the firm exercise its discretion in selection of site for the hand pump wells by ignoring the instructions of the concerned Junior Engineer which shall result in debarring/blacklisting of the firm.
- 6. Agreement: The successful tenderer, however, is required to execute an agreement with the department within fifteen days of placement of allotment order with him. Failure to execute an agreement, shall not however, prevent the contract from being enforced against him and the payments shall be released only after execution of the agreement by the successful tenderer and acceptance thereof by the department.
- 7. Phe hand pump well, duly constructed, installed and tested to the entire satisfaction of the department hall be successfully commissioned and handed over to the authorized representatives of the Department.
- 8. <u>Defects Liability Peri</u>od: The defects liability period shall be a period of 07 months which shall commence after the successful completion of trial run, the bidder shall be responsible to make good the lefects and replace the defective parts in full or partly as per directions of site engineer at his own expense of the firm any defect in works which is noticed during the DLP. In case any defect remains unattended by the firm at the completion of DLP, the department may extend DLP for such time as deemed it for getting the defect rectified subject to a maximum ceiling of 06 months.
- 9. <u>Farnest Money</u>: The earnest money enclosed with the tender in the shape of *CDR No.* 3081161 [lated: 21-10-2023 for an amount of Rs. 12, 500/= pledged to the Executive Engineer, (JAL SHAKTI) [PHE Ground Water Division, Srinagar is adjusted towards performance security will be released in avour of the firm after successful completion of the job.
- 10. <u>Ferms of payment:</u> Subject to availability of funds 90% payment shall be released after successful ompletion of well as per the specifications laid only after verification from concerned Assistant Ex. Engineer, and Balance 10% shall be released after defect liability period.
- 11. Failure to execute the work: In case the firm/agency fails to execute the job as per the terms and conditions of allotment order/NIT the earnest money deposited shall be forfeited. The earnest money shall be refunded in favour of un-successful tenderers immediately after finalization of the contract, whereas it shall be retained in case of successful tenderer and treated as security deposit to be refunded after successful completion of the contract.
- 12. <u>Contractor dying, becoming insolvent or imprisoned</u>: In the event of the death or insanity or insolvency or imprisonment of the contractor or where the contractor being a partnership or irm becomes dissolved or being corporation goes into liquidation, voluntary or otherwise, the contract may, in the option of the Engineer-in-charge, be terminated by notice in writing posted at the site of the works.
- 13. Suspension of the works by the Contractor: In case of the Firm/Agency failing to execute the ob the department has the right to get the work executed through some other firm/agency or of its own at the risk and cost of the defaulters.
- 14. <u>Availability of funds</u>: The demand of funds under an appropriate head of account stands ubmitted to the concerned quarters and the payments shall be made only after the availability of unds. No claim for payment will be entertained till the funds are released. Moreover, a test eport of the water is to be apprehended with the bill before payment.

Penalty Clause: In the event of the successful tenderer failing, declining, neglecting or delaying execution of work in time and in the event of any damage occurring/being caused by the successful execution of work in time and in the event of any default or failure by the successful tenderer in complying with any terms and conditions of the contract, the department shall without prejudice to any other remedy
